

HANSEN TURBINE

Responsive People Responsible Performance

Steam Turbine Blading

Hansen Turbine manufactures steam turbine blading for all OEM styles of blading for the utility and industrial markets. Hansen Turbine parts are made in the USA and we are ISO 9001:2015 certified.

HANSEN TURBINE

Responsive People Responsible Performance

Steam Turbine Blading

Hansen Turbine helps steam turbine customers avoid mistakes and costly project delays. Our experienced team of engineers verifies the accuracy of customer supplied data and drawings. Discrepancy and error findings are resolved with customer input prior to manufacturing. One of the industry's finest manufacturing and quality assurance teams work seamlessly to produce and deliver precision, installation-ready blading.

Hansen Turbine has the capability to manufacture all OEM style steam turbine blading and related hardware for the industrial and utility markets. We proudly manufacture in the USA and are ISO 9001:2015 Certified.
